1. Walk down the track to the drive, head towards the main road then go through the gate on your right, before the woodland. Follow the fence line to a stile, cross the little bridge and head up the steps.

2. Cross over the main road and head for the gate diagonally to your right. Take your time crossing as cars travel fast along here!

3. Follow the fence line and go through the gate then keep going until you reach another gate which leads on to a track.

4. Follow the track all the way down the hill until you come to a T junction. Turn left and follow the track all the way to the top of the hill fort.

5. You can take the steep path route to the top or the track which is slightly easier!
